Please note widths include measurement for bushes which are 28mm in total.

Important Note: Traditional cast iron radiators will come in a cream or grey primer (dependent on availability) please be aware that primer is not a finished surface. These radiators must then be finished with a paint suitable for radiators. When painting your radiators topcoats and undercoats must NEVER be WATER BASED or EMULSION. Be careful in selecting undercoats as some modern formulations are water based even though they are intended for use with oil based topcoats. Water based paint may create rust pockets that will develop and become unsightly.

Optional Cast Iron Wall Tie

We recommend the following;

- 1 wall tie for 7 - 8 section radiators
- 2 wall ties for 9 - 12 section radiators.
