

# RAL COLOURS

All white Radiator and Towel Rail ranges are also available in a choice of 25 RAL colours (excluding the WESSEX, ARGYLL, LANARK stainless steel and the traditional CLEVES & BOLEYN towel rails)

Your new radiator or towel rail will be painted by our UK based specialists in a long lasting satin finish. To allow for the colour process, delivery will be up to 15 working days to UK mainland invoice addresses, offshore islands may take longer where we aim to deliver within 20 working days. For orders of more than 10 radiators please allow an additional 5 working days. 25 popular RAL colours to choose from, painted in a satin sheen finish, similar to eggshell.

RAL 9016 - Traffic White supplied as standard (excluding the SAXON & WOBURN supplied in RAL 9010 as standard).

Please Note; delivery dates can only be confirmed once we have receipt of your chosen RAL colour number; please ensure your selected colour number and name is included on your order.

Please note: Due to the printing process and manufacturing tolerances the colour (including white) of a finished radiator may vary slightly from the colours represented in this brochure. It should also be noted that the final finished colour of radiators ordered in the same colour but at different times may vary due to production processes.

To discuss a quotation for other colours outside of the above range please call 01342 306880.

# SPECIAL FINISHES

New for this edition we are now able to offer 5 Special Finishes for all radiators and towel rails that are currently available in RAL colours.

Carbon, Gun Metal Grey, Mottled Copper, Mottled Silver & Textured Matt Black are available for delivery in up to 15 working days.

## Carbon

A softly textured matt finish, this dark tone is one of our most popular colours. With the growing trend for dark matt greys and black for both walls and now taps and fittings, Carbon is the perfect complement.

## Gun Metal Grey

This dark grey satin finish is a perennial favourite. With a fine dusting of silver that creates a subtle detailing.

## Mottled Copper

The first of our two mottled effects, the copper and black tones are perfect for a more traditional look, the mottled effect produces a hammered textured finish. The colours combine to give a fine two-tone finish that works particularly well on CORNEL multi column.

## Mottled Silver

The second mottled finish, can work well in both contemporary or traditional schemes. The silver and black combination produces a more industrial hammered finish.

## Textured Matt Black

A matt finish with a stippled texture that is less pronounced than the mottled effect above.

Please note: Due to the printing process and manufacturing tolerances the colour of a finished radiator may vary slightly from the colours represented in this brochure. It should also be noted that the final finished colour of radiators ordered in the same colour but at different times may vary due to production processes.
